# Design Speaks

---

## Our Houses

---

A conversation between architects and their clients

---

Go behind the scenes to hear about how architects have collaborated with their clients to create homes that reflect the way we live today.

**ANDREW MAYNARD** of Melbourne-based practice **AUSTIN MAYNARD ARCHITECTS**, along with client Meahan Callaghan, will share the story behind Mills, the Toy Management House – a playful home with a floor that is a giant toy box.

Brisbane-based architect **STUART VOKES** of **VOKES AND PETERS**, with his client Louise Fry, will explore the design and processes that led to the Mt Pleasant Walled Garden in Perth. The reconfiguration of this home formalizes a garden around the existing house with a suite of brick enclosures.
