Design Speaks.

Health Care / Health Design
Session 1 – People-Centred Healthcare: Designing for Community Impact

Tuesday, 3 October 2023

LEARNING OUTCOMES

Participants who attend Health Care / Health Design 2023 – Session 1 will be able to:

· Understand the role architecture plays in fostering positive experiences between patients and the healthcare sector.
AACA Competencies: Project Initiation and Conceptual Design; PC25, PC28.

· Recall new strategies that allow architects to research and analyse the circumstantial needs of a community-centric health project.
AACA Competency: Project Initiation and Conceptual Design; PC24.

· Identify and assess specific consultation processes that can improve community perceptions of a healthcare facility.
AACA Competencies: Practice Management and Professional Conduct, PC7;

Project Initiation and Conceptual Design; PC30, PC34.

FORMAL ASSESSMENT

· List three common barriers that arise when designing community-centric healthcare facilities.

· Compare two approaches of consultation undertaken by speakers in this session, and identify the influence this had on project outcomes.

· Identify a specific speaker that challenged you to think differently about architecture's role in fostering positive community perceptions of a healthcare facility.

· Give an example of a design strategy discussed in this session that could be adapted to an Australian context.

· Describe how the material presented in this session will directly influence your design practice.

· Were there any issues raised in this session that you feel require further exploration?

NOTE: Attendance certificates will be issued via email from 22 November 2023.
