Design Speaks.

The Architecture Symposium, Brisbane

Friday, 9 June 2023

LEARNING OUTCOMES

Participants who attend The Architecture Symposium, Brisbane will be able to:

· Cite specific examples of meaningful, respectful and appropriate engagement with communities across the Asia Pacific region.
AACA Competencies: Project Initiation and Conceptual Design; PC17, PC27, PC29.

· Compare and consider interdisciplinary design approaches and their role in the future of architecture.
AACA Competencies: Project Initiation and Conceptual Design; PC18, PC28.

· Speculate on and assess architectural strategies and material choices that seek to benefit both architectural design and the environment.
AACA Competencies: Project Initiation and Conceptual Design; PC31, PC33.

· Recall specific examples of projects presented in this session and consider how they are challenging design thinking in the field of architecture across the Asia Pacific.
AACA Competencies: Project Initiation and Conceptual Design; PC24, PC34.

FORMAL ASSESSMENT

· Discuss how interdisciplinary approaches are producing contextually responsive and unique design outcomes across the Asia Pacific.

· Compare two projects that sensitively and thoughtfully incorporate cultural history and/or community values into the design. Consider how community engagement and authorship was addressed.

· Identify two techniques that speakers in this symposium have used to control the qualities of recycled or repurposed materials.

· Describe how the material presented in this symposium will directly influence your design practice.

· Recall a specific speaker who challenged you to think differently about architecture's role in sustainability within the Asia Pacific region.

· List any issues raised that you feel require further exploration or discussion.

NOTE: Attendance certificates will be issued via email from 14 June 2023.

DS. 5 Formal CPD Points
