

Design Speaks.

The Architecture Symposium: Beyond the Building

Session 1 – Ripple Effects

11 November 2021

LEARNING OUTCOMES

Participants who attend The Architecture Symposium: Beyond the Building – Session 1 will be able to:

- Understand how public projects can influence change at both a local and national scale.

AACA Competency: Design, Project Briefing: 1.2; Pre Design 2.1

- Identify and compare innovative design strategies for public projects that aim to contribute to the civic whole.

AACA Competency: Design, Conceptual Design: 3.2

- Speculate on possible future trajectories in the design of public projects.

AACA Competency: Design, Schematic Design: 4.2

FORMAL ASSESSMENT

- Identify three ways a public project discussed in this session has influenced the transformation of its surrounding built and social context.

- What are two new considerations for public projects that have arisen in recent years?

- What is an example of a design strategy discussed in this session that has synthesized two conflicting factors?

- Recall a specific speaker who challenged you to think differently about the relationship between public projects and its surrounding context.

- Were issues raised that you feel require further discussion or exploration?

- Describe how the material presented in this session will directly influence your design practice.

NOTE:

Attendance certificates will be issued via email from 24 January 2022, pending verification of your attendance by the platform's analytics. This is not an automated process, so please allow time for these to be issued.
