

Design Speaks.

The Architecture Symposium: Beyond the Building

Session 4 – Making versus Taking

2 December 2021

LEARNING OUTCOMES

Participants who attend The Architecture Symposium: Beyond the Building – Session 4 will be able to:

- Speculate on the trajectories of sustainable design in the field of architecture in Australia.

AACA Competency: Design, Schematic Design: 4.2

- Understand the opportunities and challenges impacting architecture and urbanism across Australia.

AACA Competency: Design, Project Briefing 1.4; Conceptual Design 3.3; Schematic Design 4.2.

- Identify and assess materials and building techniques that seek to benefit both architectural design and the environment.

AACA Competency: Design, Schematic Design 4.6; Documentation, Detailed Design 5.6

FORMAL ASSESSMENT

- Describe three key issues raised by the speakers in this session.
- Identify two theories or ideas explored through unbuilt design schemes and consider how they aim to contribute to society beyond their footprint.
- Compare specific examples of projects presented by practitioners that aim to address the challenges of the built environment.
- Identify a specific speaker who challenged you to think differently about the social and environmental responsibilities of architecture.
- Were issues raised that you feel require further discussion or exploration?
- Describe how the material presented in this session will directly influence your design practice.

NOTE:

Attendance certificates will be issued via email from 24 January 2022, pending verification of your attendance by the platform's analytics. This is not an automated process, so please allow time for these to be issued.
