

Design Speaks Collection Season Two.

Urgent Attention Required: Designing for Crisis

October 2022 – January 2023

LEARNING OUTCOMES

Participants who attend Urgent Attention Required: Designing for Crisis (Design Speaks Collection Season Two 2022/2023) will be able to:

- Interrogate how the design of health care buildings – and the built environment more broadly – can influence outcomes in emergency or crisis scenarios.

AACA Competency: Project Initiation and Conceptual Design; PC18, PC25.

- Compare case study health care projects that are designed for moments of high intensity and emergency.

AACA Competency: Project Initiation and Conceptual Design; PC24.

- Recall research into the built environment response to COVID-19 in the health care sector.

AACA Competency: Project Initiation and Conceptual Design; PC28.

FORMAL ASSESSMENT

- Identify three ways in which architecture can influence health care outcomes in emergency situations.

- Identify a specific speaker that challenged you to think differently about designing for emergency/crisis.

- What is one way that COVID-19 might change the way health care facilities are designed?

- Give an example of a design strategy discussed in this session that could be adapted to an Australian context.

- Describe an area of research covered in this session that is relevant to your own practice. How is it relevant?

- Were there any issues raised in this session that you feel require further exploration?

NOTE:

Attendance certificates will be issued via email from 31 January 2023 pending verification of your attendance by the platform's analytics. This is not an automated process, so please allow time for these to be issued.
